

OTHER THOUGHTS:

- Should we have our BEE NICE Values anywhere?
- We should have more pictures throughout - maybe replace the one of Pete and Frances
- Should we have a section about future enhancements or programs

HOMEPAGE:

Header area:

REVISE: Redefining **support** through nature and “**community**” or “**purpose**” or “**belonging**”

A working farm in the foothills of the Blue Ridge where people with developmental disabilities are supported and empowered to grow in nature.

Our mission:

TYPO: began as a **vision to** - currently says “visioo”

REVISE: remove the “here” sentence and replace it with: People in our program engage with trails, animals, gardens, and staff who care. Days are designed around a sense of purpose and belonging, with an emphasis on growth and meaningful relationships.

Programs:

Change the wording - it's implying that all of our services take place on the farm - could just be “Our Services” - or “licensed support rooted in connection, growth and belonging”

Separate group day and community coaching/engagement since CC does not happen on the farm

Our home:

First paragraph - great!

The second paragraph.. REVISE: “Today, the property features a range of animals, a robust garden, walking trails, and a variety of activity stations. Thank you to Frances’ incredible generosity, this property and land have become the foundation of our programs and have changed the lives of many”

Support **Autism Sanctuary (change)**: is it bad to say medicaid leaves gaps hehe? We could just take out “that medicaid and grants can miss”

ABOUT PAGE:

This should highlight Brewster's story!! There is a lot that I would change on this page... Could add an “Our Why” or “Our Story” section

CHANGE: A farm-based program where people with developmental disabilities are seen, supported, and busy outdoors.

CHANGE: We pair passion and commitment with nature to create a therapeutic and active environment.

Under the mission statement: TYPO and CHANGE: change meaningful participation to **meaningful engagement through nature-based skill-building activities**.

ADD: As we began serving families, we continued to identify gaps in services and expand our programs and offerings to meet the diverse needs of individuals and families in multiple ways. We now offer off-site residential and community-based services in addition to our on-site day program.

REMOVE: "we partner" with sentence

Farm Model and Philosophy: I think we could remove this whole section and shift some of the ideas to the "Our Story" or "Our Why" above - AKA the brewster section

Our home: we could copy what we wrote on the home page about the home since they are so similar anyways

PEOPLE PAGE:

Obviously just need to add all of the bios and photos! I can work on putting this together if that'd be helpful

PROGRAMS PAGE:

CHANGE: Autism Sanctuary is a Virginia DBHDS-licensed **provider** serving **adults with developmental disabilities**. Licensed services show up both alongside our farming operations as well as out in the community and in people's homes, creating a more integrated support structure tailored to each individual's needs.

Group Day and CC

CHANGE: separate group day from CC/CE

REMOVE: evidence based practice bullet point

ADD: Range of support ratios provided - based on individual support needs

Residential and home-based supports:

remove "pathways"

Remove all bullet points - the first one stands true for all services

workplace assistance:

remove small-team coaching - just 1:1 support"

CHANGE: Employer partnership

OUR FARM

CHANGE: Roughly 85 acres of trails, animals, gardens, and activity stations, woven into the Blue Ridge Mountains. Licensed supports are integrated with hands-on skill-building, meaningful engagement, and a strong sense of purpose.

Why this place matters

CHANGE: Our operating farm offers meaningful engagement and skill development grounded in nature and farming practices. Activities include immersive trails that encourage movement and exploration, gardens that support

therapeutic skill-building, animal care opportunities, and a range of hands-on activities designed to build confidence, independence, practical skills, and a deeper connection with nature.

Animals and Agriculture

Cattle

CHANGE: Our cattle move regularly between pastures, enjoying days in the sun and plenty of room to explore. People in our program visit the herd regularly, offering gentle pets, scratches, and snacks while building familiarity and connection. After a long, happy life, our grass-fed cattle are processed into beef made available directly from our farm and through local partners and our farmers market tables.

ADMISSIONS PAGE

CHANGE FOR SURE: Our admissions team works closely with individuals, families, guardians, and case managers to understand each person's goals, strengths, and needs and identify the supports that are the best fit.

I honestly think we could delete this page and add the above sentence to our programs page that then leads to the "inquiry form" section

CAREERS PAGE

CHANGE header: Make a Difference. Build Relationships. Love Where You Work!

CHANGE: We hire Direct Support professionals who are passionate about working with people with developmental disabilities and eager to grow and learn alongside the people we support!

CHANGE: Be the teammate who makes a difference.

CHANGE: DSP's provide hands-on and person-centered support that helps individuals build skills, pursue their goals, and engage meaningfully in their communities and daily lives.

- **Training provided:** All required DBHDS, autism, and behavioral training is provided upon hire. No prior experience required.
- **Career pathways:** Build experience that can translate to careers in nursing, occupational therapy, social work, education, and related fields
- **Flexible hours and schedules:** Find a service and schedule that works for you, with opportunities to fit this meaningful work into your life.
- **Supportive, team-oriented culture:** Work alongside a team that values collaboration, compassion, and learning.
- **Meaningful, rewarding work:** Build genuine relationships, make a difference, and see the impact of your work everyday.

We need pictures!!!

RESOURCES & GUIDANCE PAGE

REMOVE: bullet point #3

CHANGE: bullet point #4: We coordinate with individuals, families, and case managers to confirm funding and service alignment

Waivers and Individuals Authorization **NS (currently missing NS)**

CHANGE: Most people access our services through Virginia's Medicaid waiver programs—commonly Family & Individual Supports (FIS), Building Independence (BI), and Community Living (CL). Each has distinct eligibility rules, budgets, and service definitions. **The individual, their family and their case manager** determines whether a specific Autism Sanctuary service can be authorized on an ISP.

DO WE NEED THIS?: **Heads-up:** Autism Sanctuary does not coordinate Children's Services Act (CSA) funding. If CSA is part of your conversation, your case manager can help identify appropriate providers.

Accessibility & transportation **N (currently missing N)**

NEWS & UPDATES

FELLOWSHIP

I think we should remove this for now since we don't really have this setup or thought out
